Definitions

Term	Definition
Time Tracking	Time Tracking is the process of keeping track of all self-growth sessions.
TimeRange	A time range is defined by a start time, an end time, and an effort expressed in hours and minutes.
Hashtag	A hashtag is a category label that summarizes the content of a self-growth session.
Descriptor	A descriptor contains additional information about the self-growth session - e.g. the software project name and version.
Trend (↕)	A trend is a gamification metric that indicates whether a measure (e.g., total work hours) has increased or decreased over time.
